- The results for December 2016 do not include the first three months of operational performance of Apollo Motorhomes LLC (North America segment) and Apollo Finance Pty Ltd, and, as well, the IPO costs (Australia segment) are included in the statutory results to 31 December 2016.
- The results for December 2017 (Australia segment) include a one off gain at acquisition of \$2.5m from revaluing the existing shareholding in CanaDream.
- Statutory results do not include the first eleven days of operational performance of CanaDream or the first two months of George Day Caravans, representing \$0.4m of after tax profit. The acquisition transaction costs of \$0.4m after tax are included in the statutory results to 31 December 2017.

RV Sales Revenue

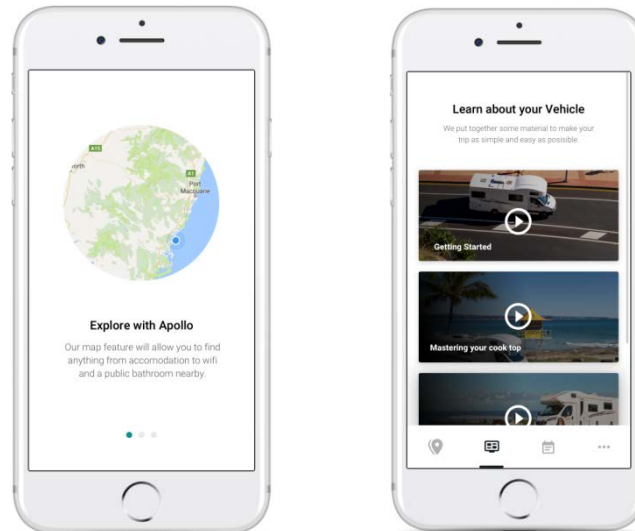

Notes:

- H1 FY18 fleet sales revenue has increased from H1 FY17 revenue in Australia and North America, reflecting the impact of acquisitions. Retail acquisitions in Australia are performing to Apollo's expectations. North American fleet sales are behind expectations as we focus on margin.
- H1 FY18 fleet sales revenue in New Zealand is down on prior year due to lower vehicle sales revenue and exchange rate variation. Lower sales revenue was a result of vehicles held on rental fleet longer to satisfy strong rental demand.

Apollo has a number of digital assets within the RV ecosystem. Our strategy is to capitalise on existing investments in digital assets to:

- Enhance rental guest experience and on-trip revenue share.
- Create ongoing relationships with our retail customer.
- Develop platforms to manage and generate revenue in the RV sharing economy (Camplify).

Our global digital strategy will be achieved through:

- Guests will be able to search and book real-time holiday park availability, attractions and experiences to customise their road trip.
- Utilising partnerships and technology to gain access to product and experiences.
- Apollo guest app to be launched late FY18.
- CanaDream app already well established and allows guests to book local tourism experiences.
- Campstay partnership allows guests to book campsites.
- Camplify investment has allowed Apollo to enter the “peer to peer” space.
- GPS tracking is being implemented across the global fleet.
- Rollout of telematics will provide our guests with a more connected experience through ancillary services that can be accessed via our digital ecosystem.
- Improved service to guests when assisting with on-road issues.
